

Customer Survey Form – Online Hosting on the Cloud

Is your company still printing customer feedback form, or customer survey on paper?

With our web applications on the cloud, we can help your company design and publish your customer survey and feedback form online. Deploying online campaigns means your business can reduce a large amount of workload on data collection, with short implementation timeframe and eliminate all data input human errors.

Now you can create new survey each week, or each month, to cater for the fast-changing business environment. Survey results are automatically reported to the designated email address in real-time, without time delay. May need survey to be conducted in other local languages? Our professional translators can give you hassle-free one-stop service.

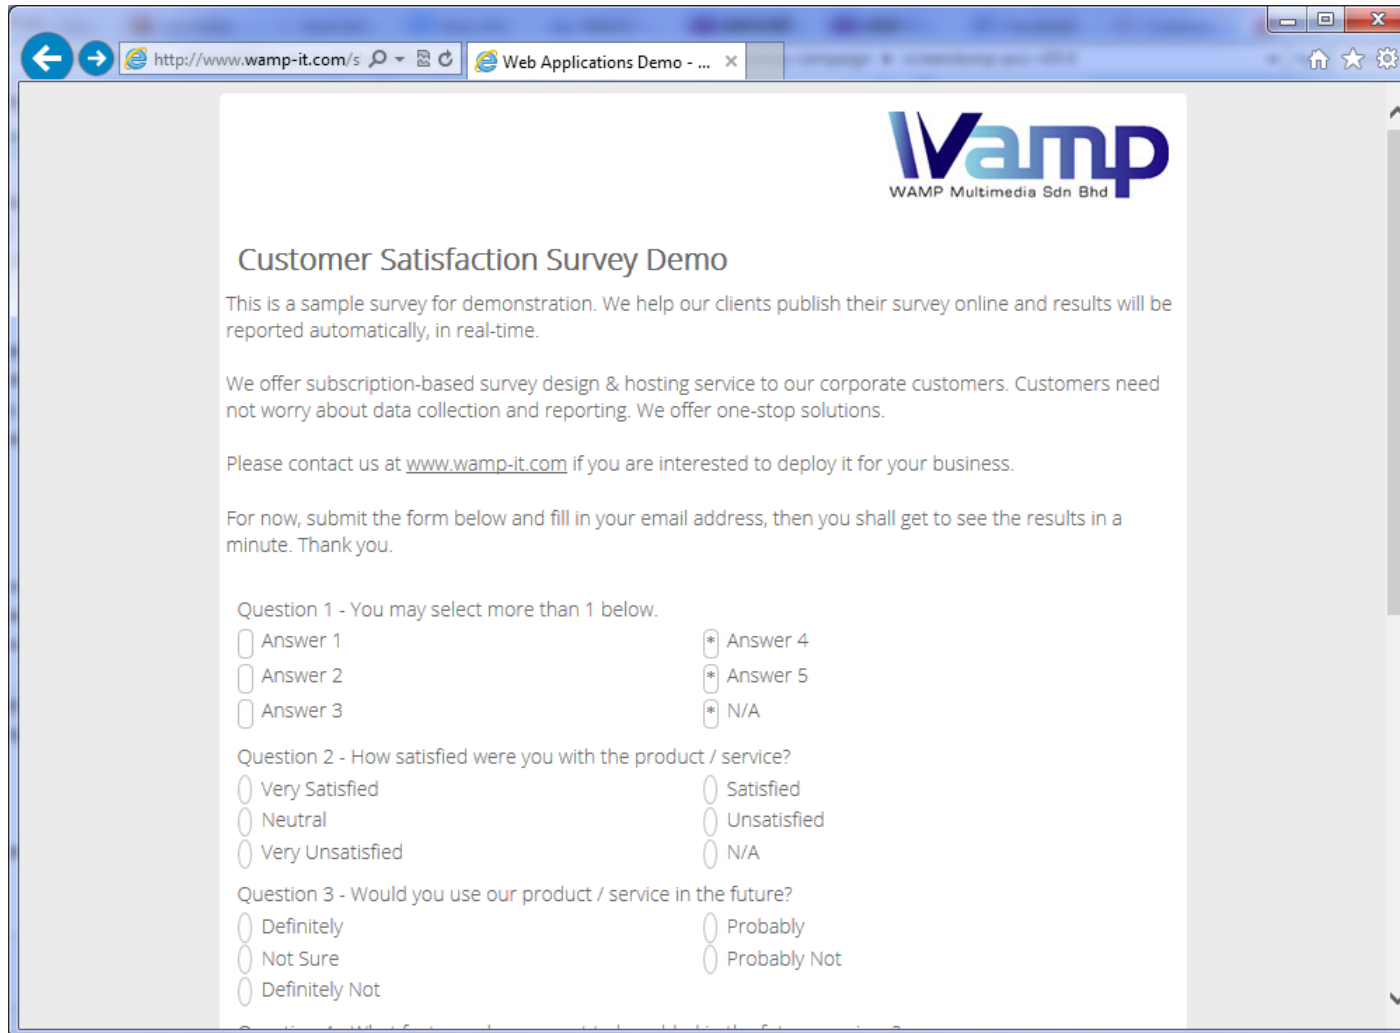

Our online survey forms are designed with this digital age in mind. Our survey forms will automatically resize to suit different displays, no matter what sizes, nicely and comfortably. Now your customers will enjoy filling up your online survey forms via smartphones, tablets, laptops or computers.

We have a demo of online customer survey form for your reference:
